SECTION I: A–Z PRIORITIZED BASIC ELEMENTS FOR HUE-MAN ENVIRONMENT RECONSTRUCTION

The following twenty-six elements are prioritized from deepest substrate (Soil) through biological complexity (Plant, Animal) to sentient agency (Human) to cosmic extension (Alien-Interplanetary). Each element is indexed A–Z, mapped to its EFIL Triad, its primary UBIMIA metabolic channel, and its SPRT:PlanET:DNA resonance layer. The sequence is a growth sequence: each element depends on all elements above it in the list. Remove any element and all elements below it become structurally unsustainable.

#	Element	Domain	Function	EFIL Map	UBIMIA Ch.	SPRT Layer	DNA Resonance
A	**Soil**	Substrate	Decomposed organic matter; growth medium; EFIL root	E3: Soil	Ch5: Property	PlanET	Telluric: Earth-frequency grounding
B	**Air**	Substrate	Breathable atmosphere; O_2/CO_2 cycle	E2: Air	Ch3: Insurance→ SSHP	PlanET	Pneumatic: breath-rhythm cycle
C	**Water**	Substrate	H_2O in all states; solvent of life; first Priority	E1: Water	Ch3: Insurance→ SSHP	PlanET	Hydrologic: planetary circulation
D	**Minerals**	Substrate	Elemental compounds; trace nutrition; material base	E3: Soil (sub)	Ch5: Property	PlanET	Crystalline: lattice-structure resonance
E	**Energy**	Substrate	Solar/thermal/chemical; activator of all elements	E4: Energy	Ch2: Tax→SOMT	SPRT	Radiant: source frequency
F	**Fire/Heat**	Substrate	Thermal regulation; transformation catalyst	E4: Energy (sub)	Ch2: Tax→SOMT	SPRT	Pyretic: transformation frequency
G	**Seed**	Plant	Genetic potential; SPRUTE=sprout; origin code	E3: Soil	Ch1: Labor→Cred	DNA	Genomic: origin-instruction set
H	**Root**	Plant	Anchoring; nutrient extraction; network mycelium	E6: Connect	Ch1: Labor→Cred	DNA	Rhizomic: underground network
I	**Stem/Trunk**	Plant	Structure; vertical growth; resource transport	E5: Shelter	Ch5: Property	DNA	Axial: vertical-growth vector

J	**Leaf**	Plant	Photosynthesis; $CO_2 \rightarrow O_2$; solar harvest	E4: Energy	Ch7: Attention	DNA	Chlorophyllic: light-capture
K	**Flower/Fruit**	Plant	Reproduction; gift economy; pollination contract	E10: Knowledge	Ch6: Know→Commons	DNA	Generative: reproduction signal
L	**Decomposition**	Plant→Soil	EFIL cycle complete; death feeds life; compost=wealth	E12: Ethics	Ch6: Know→Commons	SPRT	Cyclic: return-to-source
M	**Microbiome**	Animal	Bacterial ecosystem; gut intelligence; soil-body bridge	E9: Identity	Ch3: Ins→SSHP	DNA	Symbiotic: cooperative micro-life
N	**Mobility**	Animal	Self-propulsion; territorial range; resource seeking	E7: Mobility	Ch5: Property	DNA	Kinetic: movement-purpose
O	**Sensation**	Animal	5+ senses; environmental awareness; FAVORS root	E9: Identity	Ch7: Attention	DNA	Perceptive: awareness bandwidth
P	**Reproduction**	Animal	Species continuity; genetic transmission; generational	E12: Ethics	Ch4: Retire→Res	DNA	Filial: parent-to-offspring transfer
Q	**Language**	Human	Symbolic communication; semantic encoding; SOMT root	E10: Knowledge	Ch6: Know→Commons	SPRT	Semantic: meaning-carrier frequency
R	**Tool-Making**	Human	Technology; instrument creation; MIEVM instruments	E11: Certify	Ch1: Labor→Cred	SPRT	Tectonic: building-force
S	**Governance**	Human	Collective decision; law; GSSG/NPR/Play NAC	E8: Govern	Ch2: Tax→SOMT	SPRT	Civic: collective-resonance
T	**Art/Culture**	Human	Aesthetic expression; meaning beyond survival; Hue	E12: Ethics	Ch7: Attention	SPRT	Chromatic: Hue-Man color spectrum
U	**Marriage**	Human	Micro-sovereignty; smallest bonded unit; Family seed	E8: Govern	Ch4: Retire→Res	SPRT	Conjugal: union-resonance
V	**Ethics**	Human	3 Principles; moral vector; BEST/SOUND/GOOD	E12: Ethics	All 7 channels	SPRT	Harmonic: universal constraint

W	**Space Travel**	Inter-planetary	FDRV/ESVRD; generation ship; beyond-Earth mobility	E7: Mobility	Ch1: Labor→Cred	PlanET	Orbital: escape-velocity resonance
X	**Terraforming**	Inter-planetary	Rebuilding Triad I (Water/Air/Soil/Energy) on new worlds	E1–E4: All Bio	Ch5: Property	PlanET	Genesic: world-building frequency
Y	**Contact**	Alien	Communication with non-human intelligence; CBGMODD expanded	E6: Connect	Ch6: Know→Commons	SPRT	Xenoharmonic: cross-species resonance
Z	**Transcendence**	SPRT	Beyond material; SPRT realized; disguise dissolved; pure commons	E12: Ethics	All 7 channels	SPRT	Omega: completion frequency

SECTION II: THE GROWTH SEQUENCE — SOIL TO STARS

2.1 Seven Tiers of Hue-Man Environment

The A–Z list organizes into seven developmental tiers, each dependent on the tier below it. The tiers mirror the seven metabolic collection channels of UBIMIA — not by coincidence but by structural necessity: the channels evolved to collect elements from exactly these tiers.

Tier	Elements	Domain	UBIMIA Channel	SPRT:PlanET:DNA
1. Substrate	A–F	Soil, Air, Water, Minerals, Energy, Fire — the abiotic foundation. No life exists without this tier.	Ch2 (Tax→SOMT) + Ch3 (Insurance→SSHP) + Ch5 (Property→Stewardship): collecting and redirecting planetary resource flows	PlanET: planetary-body frequency. These elements belong to Earth before they belong to any species.
2. Plant	G–L	Seed, Root, Stem, Leaf, Flower/Fruit, Decomposition — the first living tier. Plants convert substrate into biology.	Ch1 (Labor→Credential) + Ch6 (Knowledge→Commons): plant labor IS credential (photosynthesis = earned energy); decomposition = knowledge returned to commons	DNA: genetic instruction set activates. The seed carries the code; the plant executes it; decomposition returns it to soil for next cycle.
3. Animal	M–P	Microbiome, Mobility, Sensation, Reproduction — motile life. Animals add movement, perception, and generational transfer.	Ch3 (Insurance→SSHP) + Ch4 (Retirement→Resonance) + Ch7 (Attention→Participation): sensation IS attention; reproduction IS generational investment	DNA deepens: genetic complexity increases. FAVORS biometrics originate here — every animal has unique sensory signature.

4. Human	Q–V	Language, Tool-Making, Governance, Art/Culture, Marriage, Ethics — the conscious tier. Humans add meaning, law, beauty, union, and moral constraint.	All 7 channels active: the Human tier is where UBIMIA becomes fully operational because humans are the only tier capable of conscious economic participation.	SPRT activates: Spirit — the private/public interface. Humans are the first tier with a disguise (private self vs. public expression). EFIL's task is to thin that disguise.
5. Inter-planetary	W–X	Space Travel, Terraforming — extending Triads I–III beyond Earth. The FDRV/ESVRD tier.	Ch1 (Labor) + Ch5 (Property): building new worlds IS the ultimate labor credential; new soil IS the ultimate property-to-stewardship conversion.	PlanET expands: from single planet to multi-planetary. The VLSA Principle governs: same architecture, new substrate.
6. Alien	Y	Contact — communication with non-human intelligence. CBGMODD expands beyond human species.	Ch6 (Knowledge→Commons): contact IS the ultimate knowledge-to-commons event. Alien epistemology entering the commons.	DNA + SPRT converge: are alien intelligences DNA-based? SPRT-structured? The Contact element tests the universality of the EFIL specification.
7. Transcendence	Z	SPRT fully realized — the disguise dissolved. Private and public unified. Pure commons. The 1000-Year horizon.	All 7 channels merge: at Transcendence, there is no distinction between extractive and resonant economics. All value IS resonance. UBIMIA's task is complete.	SPRT:PlanET:DNA unified: Spirit, Planet, and Genetic Code recognized as three expressions of one source. The Triune Math at omega: C=R×P/M = 1.

SECTION III: TALONIC SYMBOLS — 1000-YEAR FUTURE MAP FOR CREATION

Talonic Symbols are the visual-semantic markers of the EarnedPath credentialing system. Each symbol represents a civilizational milestone on the 1000-Year Future Map. The symbols are organized into ten Centuries, each Century containing a Growth Formulaic that specifies what must be achieved before the next Century can begin. The sequence follows the A–Z growth tiers: Substrate centuries first, then Plant, then Animal, then Human, then Interplanetary, then Contact, then Transcendence.

Each Talonic Symbol is a compound glyph: a visual element (the symbol itself), a semantic element (the label), and a formulaic element (the Growth Formula for that Century). Together, the ten symbols form the complete map from first soil to final transcendence.

CENTURY I: THE SEED (Years 0–100)

Talonic Symbol: Hexagonal Prism — the crystalline structure of mineral soil. Six faces = 6 substrate elements (A–F).

Growth Formula: $EFIL_0$ = Verify(Water · Air · Soil · Energy) at THOW scale. First bonefication. First SSSC credential. First REAL_HELP number activated. First COI formed around first shelter.

Milestone: One THOW achieves full SCALULAR bonefication across all four pillars. VLSA seed test passes. The soil is confirmed viable. EFIL > 0.

CENTURY II: THE ROOT (Years 100–200)

Talonic Symbol: Six-Petaled Flower — the mycelial network. Root systems connecting THOWs into COIs.

Growth Formula: $EFIL_1 = EFIL_0 \times$ COI_count. Multiply seed across communities. HFVN connects COIs. UBIMIA Channel 1 (Labor→Credential) operational. 64-cell standing matrix active for first S3C cluster.

Milestone: First S3C achieves BODY status. Multiple COIs with complete skeletons. Regional REAL_HELP network operational. EarnedPath certifications portable across COI boundaries.

CENTURY III: THE CANOPY (Years 200–300)

Talonic Symbol: Shamrock/Trefoil — the three-leaf triune canopy. Plant tier fully operational.

Growth Formula: $EFIL_2 = EFIL_1 \times$ SOMT_coverage(72 Key Domains). All 72 CyberRAVE domains bonefication. GAIA SOMT GEAR operational. PlayNAC delivering RT media. Trifurcated border governance replacing binary borders at regional scale.

Milestone: Continental-scale S3C resonance achieved. FDRV corridors bonefication between cities. GERP computing critical paths across multiple S3C implementations. Proof-of-Resonance economics demonstrating structural advantage over Proof-of-Work.

CENTURY IV: THE HEARTBEAT (Years 300–400)

Talonic Symbol: Spade — the heart suit inverted to dig deeper. Animal tier: sensation, mobility, microbiome.

Growth Formula: $EFIL_3 = EFIL_2 \times$ FAVORS_coverage. FAVORS biometric identity fully deployed. CBGMODD participation stack operational at all levels. BERA metrics measuring resonance across every COI in real time. NPR has structurally replaced punitive justice in participating S3Cs.

Milestone: UBIMIA's Phase 2 (Absorption) dominates: resonance channels demonstrably outperform extractive channels across all seven collection paths. 401(k) Soft Landing proven at scale. GraceChain resonance instruments outperforming market instruments.

CENTURY V: THE VOICE (Years 400–500)

Talonic Symbol: Four-Pointed Star — Language, Tool-Making, Governance, Art. The Human tier begins.

Growth Formula: $EFIL_4 = EFIL_3 \times$ SCALULAR_global. SCALULAR certification available "relatively free" to every living person through UBIMIA. SSSC = planetary baseline credential. Every human has access to HEALTH, LAW, PROTECTION, SKILLS/TRADE pathways.

Milestone: GAIA achieves BODY status: planetary organism with functioning bones, skeleton, frame, and metabolic systems. GERP computing single global critical path. Meritcoin as dominant resonance currency alongside declining extractive currencies.

CENTURY VI: THE UNION (Years 500–600)

Talonic Symbol: Heart — Marriage as micro-sovereignty. The Family elemental fully expressed.

Growth Formula: $EFIL_5 = EFIL_4 \times$ NPR_global. Non-Punitive Remediation operational as planetary governance standard. Punitive systems vestigial. Trifurcated borders govern all inter-COI, inter-S3C, and inter-regional boundaries. Sovereignty respected from marriage (micro) to civilization (macro).

Milestone: UBIMIA Phase 3 (Assimilation) dominates: extractive economic channels vestigial. Proof-of-Work economics structurally displaced by Proof-of-Resonance. The SPRT disguise has thinned to near-transparency in participating civilizations.

✶

CENTURY VII: THE COMPASS (Years 600–700)

Talonic Symbol: Six-Pointed Star — navigational. Inter-planetary tier: Space Travel begins.

Growth Formula: $EFIL_6 = EFIL_5 \times ESVRD_operational$. ESVRD propulsion validated (Phase 1 experiment confirmed per v4.0 white paper). First generation-ship FDRV under construction. VLSA final test: full S3C architecture transferred to vessel with zero Earth dependency.

Milestone: First human habitat beyond Earth achieves full EFIL specification: all 12 elements verified at interplanetary scale. Terraforming protocols derived from EFIL Triad I (Water, Air, Soil, Energy) applied to non-Earth substrate.

✱

CENTURY VIII: THE GARDEN (Years 700–800)

Talonic Symbol: Heavy Asterisk — the blooming of multiple worlds. Terraforming tier.

Growth Formula: $EFIL_7 = EFIL_6 \times World_count$. Multiple worlds sustaining independent GAIA-equivalent organisms. Inter-planetary HFVN connecting world-BODYs. Federated GSSG across solar system. Inter-world GERP computing multi-planetary resource allocation.

Milestone: Human civilization is multi-planetary and self-sustaining. Extinction risk from single-planet dependency eliminated. EFIL specification proven universal across different planetary substrates.

☄

CENTURY IX: THE SIGNAL (Years 800–900)

Talonic Symbol: Comet — the signal traveling across void. Contact tier.

Growth Formula: $EFIL_8 = EFIL_7 \times Contact_resonance$. Communication with non-human intelligence achieved or confirmed. CBGMODD expanded to include non-human participants. Knowledge→Commons channel absorbs alien epistemology. EFIL specification tested against non-Earth-originated life: do the 12 elements hold for non-human sustainability?

Milestone: The universality question is answered empirically. Either the EFIL specification is universal (the 12 elements apply to all sustainable environments regardless of origin species) or it requires expansion. Either answer advances the architecture.

CENTURY X: THE SUN (Years 900–1000)

Talonic Symbol: Sun — the source. Transcendence tier. The disguise dissolved.

Growth Formula: $EFIL_9 = EFIL_8 \times \Omega$. Omega multiplier: the system achieves self-referential completion. SPRT:PlanET:DNA unified. Private and public epistemology merged. The wealth-hoarding mechanism structurally dissolved. All knowledge in the commons. All value resonant. All governance non-punitive. All borders trifurcated. All access universal. C=R×P/M approaches optimal: M minimized, C maximized.

Milestone: The 1000-Year Future Map is complete. The seed planted in Century I has grown through soil, root, canopy, heartbeat, voice, union, compass, garden, signal, and sun. GAIA is not a planet — it is a civilization spanning multiple worlds, governed by resonance, sustained by the twelve elements, constrained by the three principles. The generations have inherited.

SECTION IV: THE GROWTH FORMULAIC — CREATION EQUATION

The ten Century milestones follow a compound growth formula:

$$EFIL_{\square} = EFIL_{\square-1} \times Scale_Multiplier_{\square}$$

Where each Scale_Multiplier is the structural achievement of that Century:

Century	Multiplier	CREATION Letter	Tier Activated
I	Verify(R_4) at THOW	C = Communities (first COI)	Substrate
II	COI_count	R = Resonant (first inter-COI resonance)	Plant/Root
III	SOMT_coverage(72)	E = Empirical (64-cell matrix, full CyberRAVE)	Plant/Canopy
IV	FAVORS_coverage	A = Asymmetric (MIEVM, FAVORS, BERA operational)	Animal
V	SCALULAR_global	T = Talonics (global certification, SSSC baseline)	Human/Voice

VI	NPR_global	I = Isolated (variable isolation perfected, NPR global)	Human/Union
VII	ESVRD_operational	O = Organic (living systems beyond Earth)	Interplanetary
VIII	World_count	N = Networks (multi-world network)	Terraforming
IX	Contact_resonance	Beyond CREATION: Contact	Alien
X	Ω (Omega)	Beyond CREATION: Transcendence	SPRT

The CREATION acronym (Communities, Resonant, Empirical, Asymmetric, Talonics, Isolated, Organic, Networks) maps exactly to Centuries I–VIII. Centuries IX and X extend beyond CREATION into Contact and Transcendence — the post-CREATION horizon where the framework is tested against non-human intelligence and ultimately achieves self-referential completion.

The Growth Formulaic is compound: each Century's output becomes the next Century's input. $EFIL_9 = EFIL_0 \times \prod$(all multipliers). The product of all multipliers across all ten Centuries equals the total civilizational output of the 1000-Year Future Map. If any multiplier is zero (any Century's milestone is not achieved), the entire subsequent chain collapses. The chain is only as strong as its weakest Century.

SECTION V: CONCLUSIONS

The Hue-Man builds in color. "Hue-Man" is not a spelling error; it is a recognition that the human species is distinguished by its capacity to perceive, create, and assign meaning to the spectrum — the range between extremes. Art is Element T. Ethics is Element V. Marriage is Element U. These are the uniquely human elements that convert biological survival (Tiers 1–3) into civilizational purpose (Tier 4) and ultimately into cosmic extension (Tiers 5–7).

The twenty-six elements, prioritized A–Z from Soil to Transcendence, mapped to the seven UBIMIA metabolic channels and the twelve EFIL irreducible elementals, governed by the SPRT:PlanET:DNA resonance triad, structured through C=R×P/M across four domains, and constrained by the Three Principles — this is the GO⟨O⟩D specification. It is the complete list of what must be present, in what order, connected by what channels, measured by what metrics, and constrained by what ethics, for any new civilization to grow from bare soil to interstellar transcendence across a thousand years.

The ten Talonic Symbols mark the path: Hexagonal Prism (Seed), Six-Petaled Flower (Root), Trefoil (Canopy), Spade (Heartbeat), Four-Pointed Star (Voice), Heart (Union), Six-Pointed Star (Compass), Heavy Asterisk (Garden), Comet (Signal), Sun (Transcendence). Each symbol is a Century. Each Century is a Growth Formula. Each Formula depends on all prior Formulas. The chain is the Map. The Map is the Plan. The Plan is CREATION.

> *"Don't hurt yourself. Don't hurt others. Build for generations to come."*

From Soil to Stars. From EFIL to LIFE. From the Seed to the Ship. From GO⟨O⟩D to GAIA. Plant.
