CARE Commons Attribution License v2.1 (CCAL v2.1)

Work: *Intelligent Design as Civilizational Option: Surfacing the Next Axial Age* — Berggruen Prize Essay Competition 2026 submission and accompanying archive (English source, Chinese translation, Session Report, supporting documentation).

Author: Joseph Allen Sprute (ERES Maestro), Founder and Director, ERES Institute for New Age Cybernetics. ORCID: 0000-0001-9946-3221.

License effective: April 13, 2026.

---

1. Grant of Rights

Subject to the conditions below, the author grants any person obtaining a copy of this work (the "Work") the right to:

- **Read** and study the Work in any context.
- **Quote** from the Work in scholarship, journalism, education, and public discourse, with attribution as specified in §3.
- **Translate** the Work into any human or symbolic language, provided the translation carries this license forward and identifies itself as a translation.
- **Cite** the Work in academic, governmental, judicial, or institutional submissions.
- **Distribute** verbatim copies of the Work in any medium, provided this license accompanies the copy.
- **Adapt** the Work — in derivative essays, lectures, courses, performances, visualizations, or other expressive forms — under the terms of §2.

2. Conditions on Adaptation

Adaptations and derivative works are permitted on the following conditions:

a. **Attribution.** The author of the original Work is clearly named. Adaptations must not imply the author's endorsement of the adaptation absent explicit written consent.

b. **Care.** Adaptations must observe the **Three Governing Principles** that organize the Work itself:

- *Don't hurt yourself.*
- *Don't hurt others.*
- *Build for generations to come.*

Adaptations that materially violate these principles forfeit their license under this Work.

c. **No Enclosure.** Adaptations may not be placed under licenses more restrictive than CCAL v2.1. The commons that this license creates may not be enclosed by downstream relicensing into proprietary, all-rights-reserved, or paywalled-as-sole-access form.

d. **Forward License.** Substantial adaptations (more than brief quotation in the course of independent argument) must themselves be released under CCAL v2.1 or a compatible commons license, and must include this license file or a clear pointer to it.

3. Attribution Format

Use of the Work in any form requires attribution that includes:

- The author's name: **Joseph Allen Sprute** (ERES Institute for New Age Cybernetics)
- The Work's title: *Intelligent Design as Civilizational Option: Surfacing the Next Axial Age*
- The license: **CCAL v2.1**
- Where practicable, ORCID: **0000-0001-9946-3221**

Suggested short form for inline citation:

> Sprute, J. A. (2026). *Intelligent Design as Civilizational Option: Surfacing the Next Axial Age*. Berggruen Prize Essay Competition 2026 submission. ERES Institute for New Age Cybernetics. CCAL v2.1.

4. Blind-Review Carve-Out

The PDF instrument submitted to the Berggruen Prize Essay Competition 2026 (`ERES_Berggruen_2026_FINAL_v2.pdf`) deliberately carries **no license notice** in its body, in compliance with the competition's blind-review requirements. This omission is a procedural compliance with the competition's terms of submission, not a withdrawal of CCAL v2.1 from the underlying Work. The Work itself — in all its forms, including the submitted PDF as an instance of the Work — is and remains licensed under CCAL v2.1 from the date above.

If the competition's review concludes (at any final disposition: shortlist, prize, or non-selection), the author may, at the author's discretion, attach the license notice to subsequent distributions of the submitted PDF.

5. Companion Archive

The following companion files are released under CCAL v2.1 from the date above, with no carve-out:

- `ERES_Berggruen_2026_FINAL_v2.md` — English source markdown
- `ERES_Berggruen_2026_FINAL_v2_ZH.md` — Chinese translation

- `Session_Report_2026-04-13_v2.md` — institutional session record
- This `LICENSE.md` file

These files may be distributed, mirrored, archived, translated further, and built upon in accordance with §1 and §2 above.

6. Disclaimer

The Work is provided "as is" without warranty of any kind, express or implied. The author makes no warranty regarding the fitness of the Work for any particular purpose. The reader assumes all responsibility for any use to which the Work is put, including any actions taken on the basis of the Work's arguments.

The Work argues that civilizational instruments should be built. It does not warrant that any particular instrument described in the Work will succeed if built. The reader is invited to take part in the building, and to bear the responsibility that taking part entails.

7. Compatibility & Lineage

CCAL v2.1 is the working license of the ERES Institute for New Age Cybernetics, in active use across the institute's published corpus since 2024. It is intended to be substantially compatible with Creative Commons Attribution-ShareAlike 4.0 International (CC BY-SA 4.0) for purposes of academic citation, archival deposit (Zenodo, ResearchGate, institutional repositories), and downstream remix, while adding the Three-Governing-Principles condition specified in §2(b).

For purposes of cross-archive deposit where CCAL v2.1 is not yet a recognized license string, the author authorizes parallel release under CC BY-SA 4.0 with the additional condition that the Three Governing Principles be observed.

8. Contact

Questions regarding licensed use, requests for written endorsement of adaptations, or notification of substantial derivative works may be directed to:

Joseph Allen Sprute ERES Institute for New Age Cybernetics 33 Westbury Drive, Bella Vista, Arkansas 72714, USA ORCID: 0000-0001-9946-3221

The Axial Age was inherited. The next Axial Age is elected. This license is one of the instruments by which election becomes possible: a description of the Work that does not enclose the Work, a structure of attribution that honors authorship without converting authorship into ownership.
