Purpose

This repository packages auxiliary research, reference specifications, and technical support documents for the **PlayNAC KERNEL** and related ERES frameworks. It functions as the R&D companion to the primary `PlayNAC-KERNEL` and `ZIP` (codebase) repositories.

What's Inside

- **Specifications** — formal `ERES-*-SPEC-*` documents (BODY, BRAINS, SPT, RCI, and related).
- **White papers** — Patriot Dividend, Transparency Deficit, ESVRD, 401(k) Soft Landing, SCALULAR Engine, BEC Architecture, GSSG/Sugar-Carbon Reservoir, Talonics Symbol Matrix.
- **Reference materials** — backronym registries, locked-terms registry (ERES TERMS #47), Three Governing Principles appendices.
- **Implementation notes** — integration guidance for subsystems (SECUIR, VERTECA, FAVORS, CBGMODD).

- **Validation records** — MIEVM scoring artifacts (Claude, Grok, DeepSeek, ChatGPT).

How This Repo Relates to the Rest

```
                    ERES Institute
                         |
     +-------------------+-------------------+
     |                   |                   |
 Proof-of-Work_MD   PlayNAC-KERNEL          ZIP
   (corpus/genesis)   (PDF spec)       (codebase)
     |                   |                   |
     +-------------------+-------------------+
                         |
                Support-Documentation  <-- you are here
                         |
                 (R&D packaging layer)
```

Where `Proof-of-Work_MD` holds the genesis markdown corpus and `PlayNAC-KERNEL` holds the canonical PDF specification, **Support-Documentation** holds the *working R&D* — the drafts, expansions, and reference assets that feed both.

Core Frameworks Referenced

- **PlayNAC** (Empirical Realtime Education System)
- **BERA Indices** — ARI, ERI, **RHC** (Resonant Harmony Cycle), RCI
- **UBIMIA** — Universal Basic Income + Merit, Investment, Awards
- **Meritcoin** — on **Proof-of-Resonance** (not Proof-of-Work)
- **SCALULAR** — four pillars: HEALTH (SSHP), LAW (SSLA), PROTECTION (SSPS), SKILLS/TRADE (SSST); Tier 1 = SSSC
- **SOMT** — Sociocratic Overlay Metadata Tapestry
- **SROC** — Smart-Resonant Offset Contracts

Governing Formula

```
C = R × P / M              (Cybernetics = Resource × Purpose / Method)
M × E + C = R              (Matter × Energy + Constant = Reason)
REAL = (E·M·R) / (T·S)     (Energy · Matter · Resonance / Time · Space)
```

Using These Documents

Specifications in this repository are **reference grade**. Implementation code lives in `ZIP`; the canonical PDF specification lives in `PlayNAC-KERNEL`. When citing, prefer the document ID (e.g., `ERES-BODY-SPEC-2026-001`) over the filename.
