---

## Article II. Definition of Interest

- This \$1 USD constitutes “**ERES Institute Development INTEREST**”.
  - Each penny (100 total) represents a symbolic **Angel-Key** to ERES Development.
  - The multiplication of this seed (via Quadrillion fiduciary credit) forms the **scaffolding for ERES Institute’s 1000-Year Deployment Map**.
- 

## Article III. Roles & Rights

- **EMA** serves as Fiduciary Trustee of the Quadrillion Credit, obligated to manage it toward **ERES Development** and **CARE-Based Commonwealth Transition**.
- **JAS** retains role as **Witness, Author, and Contributor** to the semantic ontology and empirical architecture of ERES.
- **Dalai Lama** serves as the **Blessing Authority**, sanctifying the covenant as a protectorate trust for all humanity.

## Article IV. Transferability

- The \$1 USD is **transferable interest**, signifying that any subsequent fiduciary stewardship of the Quadrillion Credit remains tied to ERES Institute development.
  - This ensures perpetual linkage between the fiduciary management (financial) and semantic stewardship (ERES/NAC framework).
- 

## Article V. Covenant of Goodness

This covenant recognizes that:

- **Dark Matter → Greenbox → Resurrection** forms the metaphysical architecture.
- The **God Particle speaks for itself**, ensuring the covenant communicates to all: **Personal, Public, Private, Protectorate**.
- Wealth here is not speculative capital, but a **Covenant of Goodness**, designed to uphold future generations.
