What This Repository Is

A flat markdown archive preserving the **genesis corpus** of ERES Institute — documents, notes, and working records spanning the CyberRAVE (pre-1997), SaleBuilders (1997–2012), and ERES Institute (2012–present) eras. The name *Proof-of-Work_MD* predates the adoption of **Proof-of-Resonance** as the canonical consensus mechanism; the repository's role is **evidentiary**, not consensus-mechanical.

> The archive is a **timestamped prior-art record**. Its markdown form is intentionally durable, diff-able, and human-readable.

Canonical Corrections

Readers of older documents in this archive should apply the following canonical corrections where earlier drafts may conflict:

Term	Canonical meaning
SOMT	Sociocratic Overlay Metadata Tapestry
SROC	Smart-Resonant Offset Contracts
RHC	Resonant Harmony **Cycle** (not *Cybernetics*)
Meritcoin	Proof-of-**Resonance** (not Proof-of-Work)
CCAL	CARE Commons Attribution License v2.1

The **Locked Terms Registry** is maintained in **ERES TERMS #47** under `Support-Documentation`.

Three Eras of the Corpus

1. CyberRAVE — pre-1997

- **72 Key Domains** culled from the Register of Collective Indices (gematria of "Joseph Allen Sprute" = 216; 216 ÷ 3 = 72).
- Global_VPN work and TLD VPN-centric domain architecture.
- Same constraint-based culling epistemology later produced the **MIEVM** short-list.

2. SaleBuilders — 1997–2012

- Marketing research and development foundation.
- Bridge to ERES Institute founding.

3. ERES Institute — February 2012–present

- PlayNAC KERNEL, BERA indices, UBIMIA, Meritcoin, SCALULAR, FAVORS/CBGMODD.
- Hague submission, DBDM 2026 Sydney, Executive Order draft, Equity Covenant.

Governing Formula

```
C = R × P / M              (Cybernetics = Resource × Purpose / Method)
```

How to Use This Archive

- **For citation of prior art** — cite by document ID where present; otherwise by filename and

commit hash.

- **For historical study** — read chronologically; early terms occasionally drift before they lock in.
- **For implementation reference** — prefer the canonical PDF in `PlayNAC-KERNEL` or the code in `ZIP`.

Citation

```bibtex
@misc{sprute_proof_of_work_md_2026,
  author       = {Sprute, Joseph A.},
  title        = {{Proof-of-Work\_MD: ERES Genesis Markdown Corpus}},
  year         = {2026},
  howpublished = {GitHub repository, ERES Institute for New Age Cybernetics},
  url          = {https://github.com/ERES-Institute-for-New-Age-Cybernetics/Proof-of
}
```
