

CASE NO 04PR-23-757

August 14, 2025

To whom it concerns,

This letter is to update the court and outline the condition of my Son Jerome Ruben Sprute who suffers from mental, physical and spiritual conditions, and has been living and staying at my home at 33 Westbury Dr., Bella Vista Arkansas 72714 this past year while under court ordered guardianship.

The following details Jerome's behavior over the course of this past year (8/24-Present)

1. Jerome has received Social Security Disability Funds and started trying to budget/save.
2. Jerome still needs help with basic household and personal duties like cooking, cleaning and laundry, although he helps out considerably including dishes and other chores like going to the store when he is able.
3. He has had some trouble taking his own medications, however has been able to control his daily regimen for the most part.
4. He has been able to control himself realistically in most situations, however still exhibits high stress and disorientation when pushed into "normal" situations of social nature.
5. He sleeps a great deal due to depression and anxiety, however is working on trying to keep a more normal schedule.
6. He is still in contact with Social Workers about his condition.

I hope that I might continue as his guardian during this time of his rehabilitation towards a more normal status.

Sincerely,

Lucy I. Sprute
