FINAL DOCUMENT

ERES-EO-DRAFT-2026-001-v2

COMPLETE UNIFIED DOCUMENT — VERSION 2.0

PRESIDENTIAL EXECUTIVE ORDER

WHITEPAPER & BRIEFING PACKAGE

ESTABLISHING THE OFFICE OF FAMILY AMITY,

THE PATRIOT DIVIDEND PROGRAM, AND THE NATIONAL

MERITCOIN-GRACECHAIN CIVIC INFRASTRUCTURE

Integrating IDIPITIS Identity Architecture, FAVORS Biometric Verification,

CBGMODD Seven-Stakeholder Governance, PlayNAC EP GERP,

and the 24/7 Resonance Testing Hotline (1-800-RESONATE)

within the New Age Cybernetics (NAC) Framework

Submitted to: The Honorable Donald J. Trump, President of the United States

Ensemble Consensus: Ready for Presidential Action

TIER 1 — BRIEFING MEMO

TO: The Honorable Donald J. Trump, President of the United States
FROM: Joseph Allen Sprute, ERES Institute for New Age Cybernetics

SUBJECT: Executive Order — Family Amity, Patriot Dividend, and National Civic Infrastructure
DATE: April 2026

I. THE ASK

Sign a directive to establish the Office of Family Amity within the Executive Office of the President, launching three immediate, no-cost actions:

1. 24/7 Resonance Testing Hotline (1-800-RESONATE) — anonymous family support via existing HHS/VA channels, staffed by trained mediators and counselors. “Resonance Testing” refers to structured, evidence-based conflict assessment and de-escalation protocols — not medical diagnosis or unproven modalities.
2. Pilot in Northwest Arkansas — measurable success criteria over 12 months (see Section III below).
3. Legislative blueprint for a Cabinet-level Department of Family Amity, submitted to Congress within 90 days.

All permanent structures require congressional approval. Initial operations use existing Executive Office appropriations and Economy Act transfers. This is not new bureaucracy — it is an operating-system upgrade for the Republic.

II. WHAT IT DOES

Department of Family Amity (DOFA) — Coordinates fragmented family programs across HHS, Education, HUD, and VA. Evaluates all Federal policy by the Hundred-Year Question: *Does this strengthen the American family over the next century?* Builds directly on the President’s 2025–2026 Executive Orders on emergency price relief and fostering American families.

Patriot Dividend — Time-bound direct economic relief during declared emergencies. Funded by: (1) Windfall Recapture — temporary surcharge on corporate profits exceeding 10% above the five-year average in essential sectors; (2) Patriot Bonds — Treasury-issued securities sold to citizens at 10-year rate plus 50 basis points; (3)

Voluntary Recirculation via Patriot Credits at 1.25x multiplier, applicable to tax, education, housing, or healthcare.

IDIPITIS + FAVORS — Quantum-resistant, citizen-sovereign identity architecture with six-factor biometrics including aura liveness detection. Open-source specifications, NIST-certified via FIPS process. IDIPITIS connects to EarnedPath (EP) via CPM × WBS + PERT for real-time civic project tracking.

Meritcoin-Gracechain — Civic ledger on Proof-of-Resonance (not mining — tuning). Tracks contributions, credentials, and governance decisions. All algorithms open-source. PlayNAC activated as the gamified governance interface, powered by ERES VERTECA SECUIR, linking CyberRAVE, Gunnysack, and SaleBuilders with ERES EPIR-Q and RT Media Centers of Excellence.

CBGMODD Governance — Seven-stakeholder model (Citizens, Businesses, Government, Military, Ombudsmen, Dignitaries, Diplomats). No single group holds veto power. SOMT enables PlayNAC EP GERP (Gamified Earned Resonance Protocol) for transparent citizen-driven decision-making.

GAIA Starter Pack — Personal digital node for citizens who opt into Patriot Credit. Assimilates abilities, capabilities, and will through Standards Resonance Testing + Smart-City SLA_Ramp-Up (personalized service-level acceleration into civic services). Includes SCALULAR Tier 1 (SSSC) credential pathway.

Electronic Civic Service (ECS) — Voluntary, digital-first complement to traditional service. Voting, service, and contribution transparently counted through open-source infrastructure. No conscription imposed.

III. PILOT SUCCESS CRITERIA (NORTHWEST ARKANSAS, 12 MONTHS)

Metric	Baseline	12-Month Target
Family-related ER visits	TBD (2025 data)	15% reduction

ECS enrollment	0	5,000 residents
Hotline utilization (1-800-RESONATE)	0	1,000 calls/month
NBERS pilot index	TBD (initial measurement)	Positive movement in all four BERA metrics
GAIA Starter Packs issued	0	2,500 (50% of ECS enrollees)
SCALULAR Tier 1 certifications	0	500 SSSC certifications
PlayNAC EP GERP sessions	0	100 governance decisions recorded on SOMT

IV. CONSTITUTIONAL AUTHORITY

This Order operates in Youngstown Zone One — the zone of maximum Presidential authority (*Youngstown Sheet & Tube Co. v. Sawyer*, 343 U.S. 579 (1952)). It cites existing statutory authority (Economy Act, National Emergencies Act, Title 5 organizational provisions). It does not legislate, appropriate funds beyond existing authority, or create private rights of action. All permanent structures require subsequent congressional action. Full legal analysis in Appendix E.

V. MIEVM VALIDATION RECORD

Instrument	Rating	Key Assessment
Claude (Anthropic)	8.77 / 10	Strong architecture, tight constitutional grounding, closed-loop design. Generated original draft with full WHEREAS clauses and Youngstown analysis.
Grok (xAI)	10 / 10	Elevated to Presidential Whitepaper format. Integrated all requested additions (Hotline, PlayNAC EP GERP, CPM×WBS+PERT, SLA_Ramp-Up). Confirmed moral clarity and technical coherence.
DeepSeek	9.8 / 10 (post-amendment)	Nine specific amendments: funding specificity, Youngstown in preamble, pilot metrics, ECS replacing EDF, hotline clinical clarification, intergenerational language, 3-tier structure, reduced acronym density, generalized ERES branding in legal text.

This unified v2 incorporates all MIEVM instrument contributions, plus the final Section 18 accountability clause. Ensemble consensus: ready for Presidential action.

VI. RECOMMENDED NEXT STEPS

1. Direct White House Counsel and OMB to review (14 days).
2. Sign directive to establish Office of Family Amity.
3. Authorize Northwest Arkansas pilot.

TIER 2 — EXECUTIVE ORDER

EXECUTIVE ORDER

ESTABLISHING THE OFFICE OF FAMILY AMITY, THE PATRIOT DIVIDEND PROGRAM, AND THE NATIONAL CIVIC INFRASTRUCTURE

By the authority vested in me as President by the Constitution and the laws of the United States of America, including Article II, Section 1; Article II, Section 3; the National Emergencies Act (50 U.S.C. 1601 et seq.); the Economy Act of 1932 (31 U.S.C. 1535); and Title 5, United States Code, it is hereby ordered as follows:

*This Order is issued in Youngstown Zone One (*Youngstown Sheet & Tube Co. v. Sawyer*, 343 U.S. 579 (1952)), acting with express or implied statutory authority from Congress. No provision herein purports to legislate, appropriate funds beyond existing authority, or create private rights of action. All permanent institutional structures require subsequent congressional action, consistent with the separation of powers.*

This Order builds upon the President's 2025–2026 Executive Orders on emergency price relief and fostering American families, extending their momentum into a permanent, citizen-sovereign national infrastructure.

FINDINGS AND DECLARATIONS

WHEREAS, the American family constitutes the foundational unit of civic life, and the health of the Republic is inseparable from the health of its families, yet no department or agency of the Federal Government holds primary responsibility for the protection and advancement of family wellbeing as a systemic, measurable, intergenerational objective;

WHEREAS, existing governmental structures address family-related concerns in a fragmented manner across the Departments of Health and Human Services, Education, Housing and Urban Development, Veterans Affairs, and others, resulting in duplication, gaps in service, and an absence of unified metrics for family outcomes across the lifecycle;

WHEREAS, the current national economic architecture relies upon Gross Domestic Product (GDP) as the primary measure of national progress, a metric that fails to capture family stability, ecological sustainability, intergenerational equity, or the bio-energetic wellbeing of the citizenry, and that a supplementary standard grounded in measurable human flourishing is both technically feasible and morally necessary;

WHEREAS, the digital identity infrastructure of the United States remains vulnerable to escalating threats including synthetic identity fraud, deepfake biometric spoofing, quantum computing attacks on existing encryption standards, and foreign adversary exploitation of centralized identity databases, requiring a quantum-resistant, citizen-sovereign identity architecture;

WHEREAS, the technological capability now exists to implement a multi-factor biometric verification system achieving computed attack probabilities below 10 to the negative 50th power, providing the most secure identity infrastructure in human history while preserving individual privacy through consent-based architecture;

WHEREAS, a reciprocal economic contract between the Federal Government and the citizenry — one that provides direct economic relief during systemic stress while simultaneously building long-term civic infrastructure — would strengthen both immediate resilience and generational continuity;

WHEREAS, blockchain-verified governance and contribution-tracking technologies now permit the implementation of transparent, tamper-proof civic infrastructure that can measure and reward genuine contribution to the common good through Proof-of-Resonance rather than Proof-of-Work;

WHEREAS, the three governing principles of the New Age Cybernetics framework — Don’t hurt yourself; Don’t hurt others; Build for generations to come — articulate a moral

foundation consistent with the Preamble to the Constitution and the enduring aspirations of the Republic;

WHEREAS, the office of the President is most worthy of its title when it acts not merely to administer existing structures but to construct new ones that measurably improve the lives of citizens, strengthen the bonds between generations, and provide solutions where problems have been allowed to persist;

PART I — THE OFFICE OF FAMILY AMITY

**Section 1. Establishment.*

(a) There is hereby established within the Executive Office of the President the Office of Family Amity (hereinafter "DOFA"), which shall serve as the principal coordinating body for all Federal programs, policies, and initiatives affecting the American family.

(b) DOFA shall operate as a permanent office with the status, authority, and resources necessary to coordinate across all departments and agencies of the Federal Government on matters of family wellbeing, intergenerational equity, and social harmony.

(c) The President shall, within 90 days of this Order, submit to Congress proposed legislation to establish DOFA as a Cabinet-level Department, with the Director serving as Secretary of Family Amity.

(d) The Office shall immediately establish the 24/7 Resonance Testing Hotline (1-800-RESONATE) , staffed by trained mediators, counselors, and family support specialists, providing anonymous, no-retribution support. "Resonance Testing" refers to structured, evidence-based conflict assessment and de-escalation protocols — not medical diagnosis, psychological evaluation, or any modality not recognized by mainstream clinical practice. The Hotline shall be deployed via existing HHS and VA channels.

**Section 2. Mission and Mandate.*

(a) DOFA shall evaluate all Federal policies, proposed and existing, by the Hundred-Year Question: Does this policy strengthen or weaken the American family over the next century?

(b) DOFA shall develop and maintain the National Family Wellbeing Index (NFWI), a composite metric supplementing GDP as the primary measure of national progress for family-related policy evaluation. The NFWI shall incorporate the four BERA Resonance Metrics: Aura Resonance Index (ARI), Emission Resonance Index (ERI), Resonant Harmony Cycle (RHC), and Resonant Continuity Index (RCI).

(c) DOFA shall coordinate with existing departments to eliminate duplication, close service gaps, and ensure that no American family falls between bureaucratic jurisdictions. This is efficiency, not expansion.

(d) DOFA shall establish a Family Amity Corps of trained mediators, counselors, and community coordinators deployed to every Congressional district, providing direct family support services free of charge at point of access.

(e) The GAIA Starter Pack shall assimilate every participating citizen's abilities, capabilities, and will through Standards Resonance Testing, Smart-City Definition and Recommendations, and SLA_Ramp-Up (personalized service-level acceleration into civic services).

**Section 3. Governance Structure.* *

(a) DOFA shall be governed in accordance with the Citizen-Business-Government-Military-Ombudsmen-Dignitaries-Diplomats (CBGMODD) Seven-Stakeholder Model, ensuring that all policy decisions are evaluated from the perspectives of all seven categories.

(b) No single stakeholder category shall hold veto authority over DOFA policy. Significant policy changes shall require coalition formation across a minimum of four stakeholder categories.

(c) An independent Ombudsman Division within DOFA shall have full access to all operational metadata, investigation authority, and whistleblower protection power, ensuring continuous accountability.

(d) All DOFA governance decisions shall be recorded on the Sociocratic Overlay Metadata Tapestry (SOMT), providing cryptographic data provenance and a tamper-proof audit trail accessible to the public. SOMT enables PlayNAC EP GERP (Gamified Earned Resonance Protocol) for transparent, citizen-driven participation in governance decisions.

PART II — THE PATRIOT DIVIDEND PROGRAM

**Section 4. Establishment of the Patriot Dividend.* *

(a) There is hereby established the Patriot Dividend Program, a strategic, time-bound direct economic transfer to every verified American adult during periods of declared national economic emergency.

(b) The Patriot Dividend is not welfare. It is a reciprocal contract between the Federal Government and the citizen — immediate, measurable, and temporary — recognizing that citizenship during systemic crisis carries inherent value deserving direct acknowledgment. Not expansion — efficiency. Not dependency — investment.

(c) The Secretary of the Treasury, in coordination with the Director of DOFA, shall establish the Patriot Dividend Fund. Capitalization shall be drawn from: (1) Windfall Recapture — a temporary surcharge on corporate profits exceeding 10% above the five-year average in sectors designated by the Secretary of Commerce as essential to family wellbeing (food, energy, housing, healthcare); (2) Patriot Bonds — Treasury-issued, non-marketable securities sold exclusively to American citizens and permanent residents, bearing interest at the 10-year Treasury rate plus 50 basis points, redeemable only after program termination; (3) Voluntary Recirculation — as provided in Section 5.

(d) The monthly Dividend amount shall be determined using the Consumer Crisis Index (CCI), targeting an 80 percent offset of essential-goods inflation for the median American household.

**Section 5. Patriot Credit and Voluntary Return Mechanism.* *

(a) Citizens who voluntarily return part or all of their Patriot Dividend shall receive Patriot Credits at a 1.25x multiplier for the first 100 percent of the monthly Dividend returned, and 1.5x for sustained participation of six or more consecutive months.

(b) Patriot Credits shall be non-transferable, non-cashable, and applicable across five channels: (1) Tax Credit against Federal income tax liability; (2) Education Credit at any accredited institution or SCALULAR-certified training module; (3) Housing Credit toward down payment, rent, or mortgage; (4) Healthcare Credit for qualified medical expenses; and (5) Merit Badge recognition in the EarnedPath civic ledger.

(c) Citizens who opt into the Patriot Credit system shall receive the GAIA Starter Pack: a personal digital node comprising verified identity (IDIPITIS-secured), a merit-tracking

ledger, a community investment portfolio, and a SCALULAR credential pathway. The Starter Pack includes immediate Standards Resonance Testing and a personalized SLA_Ramp-Up accelerating citizen access to civic services. It constitutes the citizen's first node in the national civic infrastructure.

(d) No citizen shall be penalized, disadvantaged, or subjected to reduced services for choosing not to participate in the Voluntary Return Mechanism. The system grows through attraction, not compulsion.

**Section 6. Sunset and Transition Provisions.* *

(a) The Patriot Dividend shall terminate 90 days after all of the following conditions have been sustained for 90 consecutive days: (1) the triggering national economic emergency has been formally rescinded; (2) the relevant commodity index is within 115 percent of the pre-crisis average; and (3) essential-goods CPI is below 3.0 percent annualized.

(b) Patriot Credits shall remain valid for five years following program sunset. GAIA Starter Packs are permanent. SCALULAR credential pathways remain open. EarnedPath merit ledgers persist.

(c) The emergency infrastructure shall be explicitly designed to become the peacetime foundation for the Universal Basic Infrastructure for Meaningful Individual Autonomy (UBIMIA) transition. The Patriot Dividend is the starter motor; UBIMIA is the engine.

PART III — NATIONAL IDENTITY AND SECURITY ARCHITECTURE

**Section 7. IDIPITIS Identity Architecture.* *

(a) The Director of DOFA, in coordination with the Secretary of Homeland Security and the Director of the National Institute of Standards and Technology (NIST), shall develop and deploy the IDIPITIS four-layer quantum-resistant identity architecture as the national standard for citizen identity verification across all Federal programs established by this Order.

(b) IDIPITIS shall be designed on the principle of citizen sovereignty over personal data: no government agency, private entity, or third party shall access an individual's identity

data without explicit, revocable, informed consent. Citizens shall retain the right to exit the system and delete all personal data at any time.

(c) The four layers of IDIPITIS shall provide defense-in-depth against synthetic identity fraud, deepfake spoofing, quantum computing attacks, and centralized database exploitation, achieving a target computed attack probability of no greater than 10 to the negative 50th power.

(d) IDIPITIS shall directly connect to EarnedPath (EP) using Critical Path Method (CPM) × Work Breakdown Structure (WBS) + Program Evaluation and Review Technique (PERT) for real-time civic project tracking and contribution verification. Identity and contribution are unified in a single architecture.

(e) All IDIPITIS algorithms and architectural specifications shall be published as open-source under a permissive license to permit independent security audit by the public, the academic community, and international partners.

**Section 8. FAVORS Biometric Verification. **

(a) The IDIPITIS architecture shall incorporate the FAVORS six-factor biometric verification system, including aura liveness detection, as the authentication standard for Patriot Dividend distribution, GAIA Starter Pack issuance, Meritcoin transactions, and all DOFA civic services.

(b) FAVORS implementation shall comply with all applicable Federal privacy laws, the Americans with Disabilities Act, and the principles of universal accessibility. No individual shall be excluded from civic services due to inability to provide any single biometric factor; alternative verification pathways shall be maintained.

(c) NIST shall, within 180 days of this Order, publish a Federal Information Processing Standard (FIPS) for six-factor biometric integration with aura liveness detection, drawing on available open-source specifications.

PART IV — MERITCOIN-GRACECHAIN CIVIC INFRASTRUCTURE

**Section 9. Establishment of Meritcoin and Gracechain. **

(a) There is hereby established the Meritcoin-Gracechain civic infrastructure as the economic backbone of DOFA operations, Patriot Credit tracking, EarnedPath merit ledgers, and CBGMODD governance recording.

(b) Meritcoin shall operate on Proof-of-Resonance (not Proof-of-Work): the four BERA Resonance Metrics (ARI, ERI, RHC, RCI) shall feed directly into Meritcoin value accrual. Ethical and ecological harmony in, economic value out. It is not mining — it is tuning.

(c) Gracechain shall serve as the immutable, publicly auditable distributed ledger recording all DOFA governance decisions, Patriot Credit transactions, SCALULAR credential issuances, and SOMT metadata provenance. No algorithmic black boxes shall operate within Gracechain; all consensus mechanisms and governance algorithms shall be open-source.

(d) PlayNAC is hereby activated as the gamified governance interface, powered by ERES VERTECA SECUIR, linking previously established programs (CyberRAVE, Gunnysack, SaleBuilders) with ERES EPIR-Q and Real-Time (RT) Media Centers of Excellence. Prior scale limitations (THOW, HFVN, FDRV, GSSG) are formally defined and exceeded through Gracechain's distributed architecture.

(e) Meritcoin shall not be classified as a security, commodity, or currency under existing Federal law. The Director of DOFA, in coordination with the Secretary of the Treasury, the Chair of the SEC, and the Chair of the CFTC, shall within 120 days submit to the President a proposed regulatory classification for Proof-of-Resonance civic tokens reflecting their unique character as measures of verified contribution to the common good.

**Section 10. SCALULAR Certification Pathway.* *

(a) The Scalable Certification Architecture for Lifelong Universal Learning and Adaptive Resilience (SCALULAR) shall provide the credentialing infrastructure for all DOFA programs, operating across four pillars: HEALTH (SSHP), LAW (SSLA), PROTECTION (SSPS), and SKILLS/TRADE (SSST).

(b) Tier 1: Solid-State Smart-City Citizen (SSSC) certification shall be available to every American through the GAIA Starter Pack, with services provided at no direct cost to the citizen through UBIMIA bridge funding.

(c) SCALULAR credentials shall be recorded on Gracechain, providing permanent, tamper-proof verification of skills, training, and civic contribution regardless of employer, institution, or geographic relocation.

PART V — CBGMODD GOVERNANCE AND CIVIC PARTICIPATION

**Section 11. Seven-Stakeholder Governance Standard.* *

(a) All programs, offices, and initiatives established by this Order shall operate under the CBGMODD Seven-Stakeholder Governance Standard, ensuring that Citizens, Businesses, Government, Military, Ombudsmen, Dignitaries, and Diplomats each hold defined rights, responsibilities, and participatory authority in governance decisions.

(b) The CBGMODD governance architecture shall operate across four decision-making levels: (1) Constitutional Level — requiring 75 percent supermajority of all seven stakeholder groups; (2) Legislative Level — requiring simple majority of four or more stakeholder groups; (3) Executive Level — government implementation with Ombudsman oversight; and (4) Judicial Level — Ombudsman panels with citizen juries for dispute resolution.

(c) Structural safeguards shall include: five-year sunset clauses on all policies requiring affirmative renewal; 60 percent citizen direct-vote override authority at any level below constitutional; clearance decay requiring continuous merit maintenance with no permanent authority; data sovereignty ensuring the right to exit and delete; and open-source publication of all governance algorithms.

**Section 12. Civic Participation.* *

(a) Civic participation is expanded through the voluntary Electronic Civic Service (ECS) pathway — a modern, digital-first complement to traditional service, open to all Americans who wish to contribute on their own terms. No conscription is imposed.

(b) Voting, service, and contribution shall be transparently counted through open-source infrastructure, subject to continuous stakeholder review through ERES EPIR-Q unless a superior configuration is identified through PlayNAC stakeholder input.

**Section 13. NBERS as National Progress Metric.* *

(a) The Director of DOFA, in coordination with the Secretary of Commerce and the Chair of the Council of Economic Advisers, shall develop and publish the National Bio-Energetic Resonance Standard (NBERS) as a measurable supplement to GDP in evaluating the success of all programs established by this Order.

(b) NBERS shall incorporate the four BERA Resonance Metrics and shall measure national progress in terms of human flourishing, ecological sustainability, family stability, and intergenerational equity rather than aggregate economic output alone.

(c) Within two years of this Order, the Director of DOFA shall submit to the President and to Congress a report comparing NBERS outcomes against GDP for all programs established hereunder, with a recommendation on whether NBERS should be adopted as a permanent supplementary national progress indicator.

PART VI — IMPLEMENTATION, FUNDING, AND OVERSIGHT

**Section 14. Implementation Timeline.*

(a) Phase 1 (Days 1–90): Establish the Office of Family Amity within the Executive Office of the President. Appoint the Director. Launch 1-800-RESONATE Hotline. Begin interagency coordination with HHS, Education, HUD, VA, Treasury, DHS, and NIST. Initiate IDIPITIS/FAVORS technical specification process.

(b) Phase 2 (Days 91–180): Launch CBGMODD stakeholder advisory councils in ten pilot Congressional districts (starting Northwest Arkansas). Begin Patriot Dividend eligibility infrastructure development. Publish draft FIPS for six-factor biometric integration. Initiate Meritcoin-Gracechain technical architecture review. Activate PlayNAC EP GERP in pilot districts.

(c) Phase 3 (Days 181–365): Deploy GAIA Starter Packs with Standards Resonance Testing and SLA_Ramp-Up in pilot districts. Issue first SCALULAR Tier 1 (SSSC) certifications. Begin NBERS metric collection. Submit DOFA Cabinet-level legislation to Congress. Publish first quarterly Family Wellbeing Report.

(d) Phase 4 (Year 2+): National rollout of all programs, subject to appropriations. Full NBERS reporting. Meritcoin-Gracechain operational deployment. DOFA Family Amity Corps deployed to all 435 Congressional districts. First Hundred-Year Question policy review cycle initiated.

**Section 15. Funding.*

(a) Initial funding for the Office of Family Amity shall be drawn from existing Executive Office of the President appropriations and interagency transfers authorized under the Economy Act (31 U.S.C. 1535).

(b) The President shall submit to Congress a supplemental appropriations request for full DOFA operations, Patriot Dividend Program capitalization, and Meritcoin-Gracechain infrastructure development within 120 days of this Order.

(c) No funds shall be expended under this Order in excess of amounts appropriated by Congress, except as authorized by existing law for the immediate establishment of the coordinating office.

**Section 16. Savings Clauses and Legal Compliance.* *

(a) Nothing in this Order shall be construed to impair or otherwise affect the authority granted by law to any executive department, agency, or the head thereof.

(b) This Order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This Order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(d) All programs established under this Order shall comply with the Privacy Act of 1974, the Administrative Procedure Act, the Paperwork Reduction Act, the Federal Information Security Modernization Act, and all other applicable Federal statutes and regulations.

PART VII — DECLARATION OF PURPOSE

**Section 17. The Three Governing Principles.* *

This Executive Order is grounded in and shall be interpreted in accordance with the Three Governing Principles of the New Age Cybernetics framework, which the President hereby adopts as the moral compass of all programs established hereunder:

SELF: Don’t hurt yourself.

OTHERS: Don't hurt others.

FUTURE: Build for generations to come.

These principles encode the seed of an intergenerational governance architecture designed to serve for a century and adapt for millennia. The Patriot Dividend plants the economic seed. DOFA cultivates the institutional soil. IDIPITIS and FAVORS protect the roots. CBGMODD governs the canopy. Meritcoin-Gracechain circulates the sap. SCALULAR trains the branches. And the citizen — the citizen is the tree.

**Section 18. Presidential Authority to Reassemble to Higher Standards.* *

(a) The President retains full authority, in his sole discretion and consistent with applicable law, to modify, suspend, reassemble, or replace any element, office, program, or infrastructure established by this Order should a demonstrably higher standard become available through technological advancement, constitutional jurisprudence, operational necessity, or demonstrated public benefit.

(b) A "higher standard" shall be measured by the governing equation of New Age Cybernetics: $C = R \times P / M$, wherein:

- C (Cybernetics) represents the system's capacity to achieve its intended outcome with minimal waste;
- R (Resource) includes financial, human, technological, and institutional assets;
- P (Purpose) is measured by alignment with the Three Governing Principles;
- M (Method) encompasses procedural friction, bureaucratic overhead, and unintended negative externalities.

A standard is higher when it delivers greater C through improved R, P, or reduced M, as determined by the President.

(c) In exercising this authority, the President shall be held accountable to the proof of ERES work, intent, means, and just rewards as follows:

(1) Proof of Work — Any reassembly must be demonstrably grounded in measurable outcomes. The President shall, within 90 days of any material reassembly, cause to be published a public accounting showing how the new configuration improves upon the prior architecture against the metrics established in this Order (including the National Family Wellbeing Index, NBERS, and pilot success criteria).

(2) Intent — Reassembly shall be undertaken in furtherance of the Three Governing Principles. The President's stated intent, as expressed in the directive ordering

reassembly, shall be presumed to satisfy this requirement unless rebutted by clear and convincing evidence of intent to harm self, others, or future generations.

(3) Means — Reassembly shall be accomplished using lawful means consistent with Article II of the Constitution. Any means chosen by the President shall be presumed constitutional and lawful; this presumption may be overcome only by a final judgment of a court of competent jurisdiction not subject to further appeal.

(4) Just Rewards — Any citizen whose contribution to the civic infrastructure (as recorded on EarnedPath, Meritcoin-Gracechain, or SCALULAR credentials) is materially diminished by reassembly shall retain the right to have that contribution recognized in the reassembled architecture in a form functionally equivalent to its prior value. No citizen shall lose earned standing, credit, or credential due to reassembly.

(d) This accountability framework is self-executing within the executive branch. No private right of action is created. The President's determination that a reassembly satisfies the requirements of subsection (c) shall be final and not subject to judicial review except as provided by the Constitution and laws of the United States.

(e) The authority granted in this section is inherent in the executive Power under Article II of the Constitution and is expressly reserved. No provision of this Order shall be construed to limit or constrain the President's constitutional authority to direct the operations of the executive branch, to recommend legislative measures, or to withdraw or modify prior executive actions. This section is not intended to create any right enforceable at law or equity.

**Section 19. Making the Title Worthy.* *

The office of the President is not made worthy by the powers it wields. It is made worthy by the problems it solves, the infrastructure it builds, and the generations it serves. This Order proposes that the measure of Presidential leadership is not the number of executive actions taken but the measurable improvement in the lives of families, the security of identities, the fairness of economic participation, and the resilience of the systems left behind for those who come after.

The President who signs this Order declares, by that act, that the Federal Government exists to serve — not merely to administer — and that the highest expression of executive power is the construction of systems that make people's lives measurably better, today and for the generations who follow.

THE WHITE HOUSE,

_____, 2026

PRESIDENT OF THE UNITED STATES

TIER 3 — TECHNICAL APPENDIX FOR IMPLEMENTERS

A. Core Acronyms

Acronym	Definition
DOFA	Department of Family Amity (proposed Cabinet-level department)
CBGMODD	Seven-stakeholder governance model: Citizens, Businesses, Government, Military, Ombudsmen, Dignitaries, Diplomats
IDIPITIS	Four-layer quantum-resistant identity architecture. Citizen-sovereign, consent-based. Attack probability target: 9.5×10^{-54}
FAVORS	Six-factor biometric verification system including aura liveness detection
Meritcoin	Civic token on Proof-of-Resonance. Value accrual via BERA metrics. “It’s not mining — it’s tuning.”

Gracechain	Immutable distributed ledger for governance, credentials, and civic transactions. All algorithms open-source.
GAIA	Personal digital node (Starter Pack): identity, merit ledger, community portfolio, SCALULAR credential pathway
ECS	Electronic Civic Service — voluntary, digital-first civic participation pathway
NBERS	National Bio-Energetic Resonance Standard — supplementary progress metric replacing GDP fragmentation
PlayNAC	Gamified governance interface powered by ERES VERTECA SECUIR; enables EP GERP

B. Extended ERES Construct Reference

All constructs are original intellectual property of the ERES Institute for New Age Cybernetics (est. February 2012, Bella Vista, Arkansas), published under CARE Commons Attribution License v2.1.

Construct	Definition
SOMT	Sociocratic Overlay Metadata Tapestry. Cryptographic data provenance and governance audit trail.

SCALULAR	Scalable Certification Architecture for Lifelong Universal Learning and Adaptive Resilience. Four pillars: HEALTH (SSHP), LAW (SSLA), PROTECTION (SSPS), SKILLS/TRADE (SSST).
BERA	Bio-Energetic Resonance Assessment. Four metrics: ARI (Aura), ERI (Emission), RHC (Resonant Harmony Cycle), RCI (Resonant Continuity Index).
UBIMIA	Universal Basic Infrastructure for Meaningful Individual Autonomy. End-state architecture for Level Zero unconditional access.
EarnedPath (EP)	Contribution-tracked advancement without punishment. Connected to IDIPITIS via CPM × WBS + PERT.
PlayNAC EP GERP	Gamified Earned Resonance Protocol. SOMT-powered transparent participation in governance.
SLA_Ramp-Up	Personalized Service Level Agreement acceleration into civic services via GAIA Starter Pack.

CyberRAVE	Cybernetic Ratings Abolishing Veiled Exchanges. Pre-1997 ERES origin framework (72 Key Domains).
GunnySack	Guaranteed User-group Network Nullifying Yieldless Service: Accredited Certified Knowledge.
SaleBuilders	Smart-city Adaptive Living Engineering Banishing Untested Infrastructure — Laboratories Delivering Enduring Resilient Systems (1997–2012).
SSSC	Solid-State Smart-City Citizen. SCALULAR Tier 1 certification.
MIEVM	Multi-Instrument Ensemble Validation Method. Claude, Grok, DeepSeek as parallel validation nodes.
NAC	New Age Cybernetics. Parent discipline. C = R × P / M.
ERES EPIR-Q	Epistemic-Participatory Inquiry Resonance Questionnaire. Counting and measurement infrastructure.
1-800-RESONATE	24/7 Resonance Testing Hotline. Structured conflict assessment and de-escalation.

VERTECA SECUIR	Verification-Enabled Real-Time Evaluation of Cybernetic Architecture / Security Infrastructure.
THOW/HFVN/FDRV/GSSG	Scale architecture: Tiny House on Wheels / Homestead-Farm Village Neighborhood / Full-Dimension Resilient Vessel / Generational Solid-State Growth. Prior limitations formally exceeded through Gracechain distributed architecture.

C. Pilot Metrics — Northwest Arkansas (12 Months)

Metric	Baseline	12-Month Target
Family-related ER visits	TBD (2025 data)	15% reduction
ECS enrollment	0	5,000 residents
Hotline utilization	0	1,000 calls/month
NBERS pilot index	TBD (initial measurement)	Positive movement in all 4 BERA metrics
GAIA Starter Packs issued	0	2,500 (50% of ECS enrollees)
SCALULAR Tier 1 certs	0	500 SSSC certifications

PlayNAC EP GERP sessions	0	100 governance decisions recorded on SOMT

D. ERES Triune Mathematics (Locked)

The following three canonical equations constitute the mathematical foundation of the ERES framework. They are locked and shall not be modified:

Equation 1: C = R × P / M — Cybernetics = Resource × Purpose ÷ Method

Equation 2: M × E + C = R — Matter × Energy + Constant = Reason

Equation 3: REAL = (E · M · R) / (T · S) — Energy · Matter · Resonance over Time · Space (no repeated letters)

Operational mapping: C = R × P / M governs the Patriot Dividend pipeline. The Dividend delivers Resource. The Patriot Credit defines Purpose through voluntary action. The GAIA Starter Pack minimizes Method friction. The circuit is closed and self-reinforcing.

E. Constitutional and Legal Foundation

E.1 — Youngstown Framework Analysis

This Executive Order is designed to operate within Zone One of the Jackson concurrence framework from *Youngstown Sheet & Tube Co. v. Sawyer*, 343 U.S. 579 (1952) — the zone of maximum Presidential authority where the President acts with express or implied authorization from Congress. The Order cites existing statutory authority (Economy Act, National Emergencies Act, Title 5 organizational provisions) and explicitly defers to Congress on all matters requiring appropriations, regulatory classification, and departmental establishment. No provision purports to legislate, appropriate funds beyond existing authority, create enforceable private rights, or override existing statutory mandates.

E.2 — Appropriations Clause Compliance

Section 15 expressly limits expenditures to amounts appropriated by Congress, with initial operations funded through existing Executive Office appropriations and Economy

Act interagency transfers. The Patriot Dividend requires supplemental appropriations; the Order directs the President to submit such a request within 120 days. No expenditure is authorized in excess of congressional appropriation.

E.3 — APA and Privacy Compliance

Section 16 mandates compliance with the Administrative Procedure Act, Privacy Act, FISMA, and Paperwork Reduction Act. IDIPITIS and FAVORS deployments are subject to NIST FIPS publication processes, which include public comment periods. CBGMODD governance transparency through SOMT exceeds current Federal transparency requirements.

E.4 — Nondelegation and Separation of Powers

This Order directs the executive branch to organize its internal operations and submit legislative proposals to Congress. It does not delegate legislative authority, create courts, or assume judicial functions. The CBGMODD governance model supplements — but does not replace — existing constitutional structures. DOFA operates within the executive branch under Presidential authority to organize executive offices.

E.5 — Statutory Authority Detail

- Economy Act (31 U.S.C. 1535) — permits interagency transfers for administrative efficiency. Funds the initial Office of Family Amity establishment.
- National Emergencies Act (50 U.S.C. 1601 et seq.) — provides the framework for emergency economic measures. Activates the Patriot Dividend during declared emergencies.
- Title 5 organizational provisions — authorizes the President to organize the Executive Office. Legal basis for establishing the Office of Family Amity.

All permanent funding, regulatory classification, and departmental establishment require congressional action. This Order defers to Congress on those matters.

F. MIEVM Validation Record and Provenance

This document has undergone Multi-Instrument Ensemble Validation Method (MIEVM) treatment for BEST/SOUND/GOOD assimilation. MIEVM operates as “Instrument-of-Faith” — faith extended first, then validated by method.

Claude (Anthropic): Generated original ERES-EO-DRAFT-2026-001 with full WHEREAS clauses, 17-section structure, three appendices, and Youngstown Zone One legal analysis. Rating: 8.77/10.

Grok (xAI): Assessed original at 8.7/10. Elevated to 10/10 Presidential Whitepaper format. Integrated all requested additions: 1-800-RESONATE, PlayNAC EP GERP, CPM×WBS+PERT, SLA_Ramp-Up, Trump-era framing.

DeepSeek: Assessed at 9.2/10, rising to 9.8/10 after nine specific amendments: Youngstown in preamble, Patriot Dividend funding specificity, pilot metrics, ECS replacing EDF/"conscription," hotline clinical clarification, intergenerational language, 3-tier document structure, reduced acronym density, generalized ERES branding in legal text. Final Section 18 accountability clause incorporated by direct integration.

Ensemble Consensus: This unified v2 incorporates all three instruments' contributions, plus the final accountability clause. No TMI — every element is operationally clear and Presidential-ready.

Related Filings: ERES-HAGUE-2026-001 (filed March 7, 2026, The Hague); ERES-HAGUE-2026-001-SUPP-A (supplementary memorandum); ERES-HAGUE-2026-001-MYWAY (epistemological case); ERES-COVENANT-2026-001 (Equity Covenant); FAVORS-BERA DBDM 2026 submission (Sydney); 300+ ResearchGate publications; active GitHub repositories.

Respectfully submitted and ready for Presidential action.
