

ERES GitHub NAC Proof of Work

Repository Overview

This repository, `Proof-of-Work_MD`, serves as the Canonical Archive for all Markdown-based Proof-of-Work related to the ERES Institute, New Age Cybernetics (NAC), and the Graceful Evolution of Civilization. It documents authored insights, declarations, system designs, and governance proposals that anchor ERES developments.

Purpose of This Repository

This repository is a living testament to intellectual, spiritual, and cybernetic labor, documenting decades of vision, simulation, civic engagement, and AI collaboration by Joseph A. Sprute and the ERES Institute. It defines what humanity can create when synchronized with Earth Sustainability, Ethical AI Guidance, Semantic Alignment, and the GraceChain Trust Ledger.

Contents

The repository is organized into the following key directories:

- `/01_Manifestos` : Foundational declarations of intent.
- `/02_Substack_Posts` : Public-facing essays and proofs.
- `/03_Infographics` : Licensed visual representations.
- `/04_Licenses` : Details on CARE Commons, CWRL, PERCMARC, and other licenses.
- `/05_Reports` : ERES whitepapers, policy briefs, and analytical models.
- `/06_Project_Folders` : Individual archives for projects like PERC, PlayNAC, and Smart City.
- `README_PlayNAC-KERNEL.md` : Cross-reference to KERNEL systems.

Key Frameworks Defined

The ERES Institute and New Age Cybernetics introduce several foundational frameworks:

- **PERC:** Personal Energy Resonance Codex
- **BERC:** Bio-Ecologic Ratings Codex
- **JERC:** Justice-Ethics Ratings Codex
- **UBIMIA:** Universal Basic Income + Merit x Investment \pm Awards
- **GAIA:** Global Actuary Investor Authority
- **SECUIR:** Silent Energy Circular Universe Infinite Rotation
- **EP:** EarnedPath Tracking System (CPM \times WBS \times PERT)
- **NPSET:** Networked Personal Simulation Environment Technology
- **FDRV & THOW:** Future-proof Smart City mobile shelter planning

What is New Age Cybernetics (NAC)?

New Age Cybernetics (NAC), pioneered by the ERES Institute, is a forward-thinking, multidisciplinary approach that addresses the complexities of our interconnected world. It combines elements of empirical real-time education systems, economic systems with environmental sustainability through AI-driven cybernetic models, and frameworks for equitable, sustainable, and merit-based value distribution. NAC aims to chart a 1000-year roadmap for a graceful evolution of civilization, focusing on smart city development and integrating various core frameworks.

Licensing & Citation Notice

This repository is governed by the **CARE Commons Attribution License v2.0**, which extends to:

- **CWRL v1.0** (Cybernetic Witness Record License)

- **PERCMARC Operational Kernel Licensing**
- **GAIA Attribution Reserve**

Contribution

For integration into policy, education, or smart-city infrastructure, please contact Joseph A. Sprute.

“This Proof is not just Documentation.

It is Resonance, carved in Markdown.”

– Joseph A. Sprute, PERC-DAY
