Purpose of This Packet

This document is provided for confidential fiduciary review to support oversight, decision-making, and stewardship of the New Age Cybernetics (NAC) Framework and associated ERES Institute initiatives. It contains: - Verified alert origin analysis and risk/opportunity mapping. - Direct cross-reference to TERMS #43 for governance, licensing, and enforcement. - Recommended fiduciary actions to protect, remediate, and advance NAC implementations. - Prepared pathways for GAIA–UBIMIA damages recovery in unauthorized use cases via Colina Financial Group fiduciary custodianship.

Confidentiality Notice: This packet contains sensitive operational and fiduciary strategy material. Redistribution outside the designated fiduciary council is prohibited without written consent of the ERES Institute.

Executive Brief — ERES Alert Origin & Risk Matrix (Baseline) Coverage: July 10 – August 9, 2025
Prepared by: Joseph A. Sprute — ERES Institute Classification: Strategic Monitoring — Fiduciary Preview
Key Signals (Past 30 Days): - Fresh Anchors: ResearchGate “PERC White Paper” (Aug 6) & “TERMS #43” (Aug 2) — strengthening academic & definitional authority. - Substack “ERES Bottom-Up Constitution” (Jul 28) & Aug 3 post — policy + ethical framing. - ResearchGate “PlayNAC HowWay” (Jul 6/7) — governance-economy integration kernel. - Primary Origins: USA (Substack, Medium, Academia.edu, Facebook) & Germany (ResearchGate HQ). - Engagement Type: Academic citations, public essays, policy governance content, cross-platform discovery loops. Opportunities: - Pin canonical glossary & “Start Here” on all platforms to unify messaging. - Leverage academic traffic to form Q&A/citation threads. - Engage policy contacts in India/Italy from prior month’s interest spikes for NAC/CARE frameworks. Risks: - Attribution drift: NAC/ERES language appearing without source credit. - Fragmentation: Multiple entry points without unified intro cause narrative scatter. - Missed momentum: Unfollowed citations or unengaged commenters can slow adoption. Immediate Actions (14 Days): 1. Pin “Start Here” + Glossary (TERMS #43) + latest anchors on all profiles. 2. Add “Cite This Work” footer to PDFs. 3. Launch RG academic Q&A; on PERC/NBERS and non-punitive remediation. 4. Outreach to last-week engagers on RG with resource bundle. Fiduciary Relevance: - EMA: PERC White Paper, TERMS #43, Bottom-Up Constitution — finance/policy integration. - DAL: Bottom-Up Constitution, Aug 3 Substack post — ethical/societal framing. - Both: PlayNAC HowWay, PERC/NBERS — governance-economy metrics & measurement.

ERES Alert Origin & Risk Matrix — Baseline (Last 30 Days) Coverage: July 10 – August 9, 2025
