⚖️ LAW
Variable	Description
`JusMERIT`	Real-time justice rating via JERC
`JusPATH`	EarnedPath violation/clarity
`RemedIB`	Remediation credit rating
`LawGCF`	Graceful reintegration metric
`JusTRUTH`	Verified truth via semantic + energetic alignment
`CivGRACE`	Civil system-wide restorative balance sheet

🏥 HEALTHCARE
Variable	Description
`CareMERIT`	Resonance with life-preserving values
`HealGRACE`	Public pool subsidy
`CareBERC`	Ecologic offset per procedure
`LifeTIME`	Remaining Bio-Electric Signature Time (BEST)
`CareUBIMIA`	Health-indexed UBI adjustments
`CareINFLO`	Trust-validated health data via NPSET

🎓 EDUCATION
Variable	Description
`EdUBI`	UBI portion for education
`EdMERIT`	EarnedPath alignment for students/teachers
`EdGRACE`	Resonance-based subsidy score
`EdNAC`	NAC-aligned curriculum earn-out
`EdSCORE`	PERC resonance with knowledge
`EdGOIL`	Transparent cost-of-instruction logistics

SECTION 1: DEFINITIONS

1.1 "**NAC Framework**" includes all concepts, methodologies, systems, algorithms, educational curricula, governance structures, and implementation strategies described in the ERES New Age Cybernetics documentation.

1.2 "**ERES Institute**" refers to the licensing authority and original developer of the NAC Framework.

1.3 "**Licensee**" refers to any individual, organization, government, or entity seeking to use, implement, or distribute NAC Framework components.

1.4 "**CARE Compliance**" means adherence to Community, Actuation, Regeneration, and Equity principles as defined in the NAC Framework.

1.5 "**Regenerative Use**" means implementation that actively heals social, ecological, or economic systems rather than merely minimizing harm.

1.6 "**Planetary Boundaries**" refers to the nine Earth system thresholds that define safe operating space for humanity.

SECTION 2: LICENSE TYPES AND TIERS

2.1 RESEARCH AND EDUCATION LICENSE (REL)

Scope: Academic institutions, research organizations, educational initiatives
Fee: Free for accredited institutions
Duration: 5 years, renewable
Restrictions: Non-commercial use only, must publish findings openly

2.2 COMMUNITY IMPLEMENTATION LICENSE (CIL)

Scope: Local communities, non-profits, grassroots organizations
Fee: Sliding scale based on community size and resources
Duration: 10 years, renewable
Restrictions: Must demonstrate CARE Compliance, community benefit focus

2.3 MUNICIPAL GOVERNANCE LICENSE (MGL)

Scope: City, county, and regional governments
Fee: Based on population and GDP
Duration: 15 years, renewable
Restrictions: Must establish DOFA-equivalent department, public transparency required

2.4 NATIONAL FRAMEWORK LICENSE (NFL)

Scope: Nation-states and federal governments
Fee: Negotiated based on implementation scope
Duration: 25 years, renewable
Restrictions: Constitutional integration required, international cooperation mandate

2.5 CORPORATE TRANSFORMATION LICENSE (CTL)

Scope: For-profit entities, corporations, business networks
Fee: Percentage of revenue tied to sustainability performance
Duration: 7 years, renewable based on CARE Credit scores
Restrictions: Must achieve B-Corp equivalent certification, regenerative business model required

2.6 TECHNOLOGY DEVELOPMENT LICENSE (TDL)

Scope: Inventors, research labs, startups, open-source developers, AI systems contributing to ERES-compatible technologies
Fee: Tiered; free for open-source/public-good use, commercial use based on tech valuation and scale
Duration: 8 years, renewable
Restrictions: Must publish Ethics & Intent statement, ensure interoperability with CARE systems, and adhere to UBIMIA/BERC/JERC metrics

---

SECTION 3: CORE LICENSE REQUIREMENTS

3.1 UNIVERSAL REQUIREMENTS (All License Types)

3.1.1 Attribution Requirement
- Prominent credit to ERES Institute and NAC Framework
- Use of official NAC certification marks and logos
- Reference to this license in all derivative works

3.1.2 Non-Exploitation Clause
- Cannot use NAC Framework to harm ecological or social systems
- Cannot implement NAC components in ways that increase inequality
- Cannot use for military, surveillance, or oppressive purposes

3.1.3 Transparency Obligation
- Public reporting on implementation progress and outcomes
- Open data sharing on sustainability metrics and impacts

Open Source Creative Commons

- Community feedback integration requirements

3.1.4 Regenerative Mandate
- All implementations must demonstrate net positive impact
- Continuous improvement toward regenerative outcomes required
- Regular third-party sustainability audits mandated

3.2 SPECIFIC REQUIREMENTS BY LICENSE TYPE

Research and Education License (REL)

- Publish research findings within 2 years of completion
- Share educational materials under Creative Commons license
- Collaborate with other REL licensees on joint projects
- Contribute to NAC Framework knowledge base annually

Community Implementation License (CIL)

- Demonstrate community consent and participation in governance
- Establish local CARE Credit systems within 18 months
- Participate in bioregional coordination networks
- Share best practices with other CIL communities

Municipal Governance License (MGL)

- Implement DOFA-equivalent department within 3 years
- Establish citizen assemblies for NAC oversight
- Integrate NAC metrics into all policy decisions
- Participate in global municipal NAC network

National Framework License (NFL)

- Constitutional amendment or equivalent legal integration
- Establish international NAC cooperation agreements
- Implement full cybernetic feedback loop systems
- Contribute to global GAIA AI development

Corporate Transformation License (CTL)

- Achieve CARE Credit certification within 2 years
- Transition to regenerative business model within 5 years
- Employee ownership or profit-sharing implementation
- Supply chain CARE Compliance within 7 years

Technology Development License (TDL)

- Open-source core NAC-related algorithms
- Privacy-by-design implementation mandatory
- Democratic governance of AI systems required
- Interoperability with other NAC technologies

Open Source Creative Commons

SECTION 4: PROHIBITED USES

4.1 Absolute Prohibitions

- Use for military weapons, surveillance, or population control
- Implementation that increases social inequality or environmental destruction
- Proprietary enclosure of NAC core principles or methodologies
- Use by entities with record of significant ecological or social harm

4.2 Conditional Restrictions

- Commercial use without regenerative business model transformation
- Government use without democratic oversight mechanisms
- Technology development without open-source components
- Implementation without community consent and participation

SECTION 5: COMPLIANCE MONITORING AND ENFORCEMENT

5.1 CARE Compliance Certification

Independent Auditing: Annual third-party assessments of CARE principle adherence
Community Feedback: Mandatory public comment periods for major implementations
Regenerative Impact Measurement: Quantified improvements to social and ecological systems
Transparency Reporting: Public dashboards showing all key metrics and outcomes

5.2 Enforcement Mechanisms

Warning System: Progressive warnings for minor compliance violations
License Suspension: Temporary revocation for serious violations
License Revocation: Permanent termination for fundamental breaches
Legal Action: Pursuit of damages for harmful misuse of NAC Framework

5.3 Appeals Process

Internal Review: Initial appeal to ERES Institute licensing board
Independent Arbitration: Third-party mediation for disputed cases
Community Input: Affected community voices in all major decisions
Restoration Pathway: Opportunity to regain compliance through corrective action

SECTION 6: FINANCIAL STRUCTURE

6.1 Licensing Fees

Research/Education: Free for accredited institutions
Community: $100-$10,000 based on size and resources
Municipal: $10,000-$1,000,000 based on population
National: Negotiated based on GDP and implementation scope
Corporate: 1-5% of annual revenue based on CARE performance
Technology: Equity stake negotiated case-by-case

6.2 Revenue Distribution

40% - Ongoing NAC Framework development and improvement
25% - Support for Community Implementation License holders
20% - Global regenerative project funding
10% - ERES Institute operations
5% - Emergency response fund for ecological crises

6.3 Performance-Based Adjustments

- Fees reduced for exceptional CARE Compliance performance
- Fees increased for poor sustainability outcomes
- Bonus payments for breakthrough regenerative innovations
- Penalty fees for compliance violations

SECTION 7: INTELLECTUAL PROPERTY PROTECTION

7.1 Core Framework Protection

Trademark Protection: NAC, ERES, and related terms protected globally
Copyright Coverage: All written materials, curricula, and documentation
Patent Portfolio: Key technological innovations and methodologies
Trade Secret Status: Proprietary algorithms and assessment tools

7.2 Derivative Works Policy

Attribution Required: All derivative works must credit original NAC Framework
Share-Alike Provision: Improvements must be shared back to commons
Non-Commercial Derivatives: Educational and research derivatives encouraged
Commercial Derivatives: Require separate licensing agreements

7.3 Open Source Components

Core Principles: Fundamental NAC concepts remain open and accessible
Educational Materials: Basic learning resources freely available
Research Data: Anonymized implementation data shared openly
Community Tools: Basic implementation tools provided free to communities

---

Open Source Creative Commons

SECTION 8: COLLABORATION AND NETWORK EFFECTS

8.1 Licensee Network

Regular Convenings: Annual global NAC implementation conference
Knowledge Sharing: Mandatory participation in best practices database
Mutual Support: Technical assistance between licensees encouraged
Innovation Collaboration: Joint development projects supported

8.2 Technology Interoperability

Standard Protocols: Common interfaces for NAC technology integration
Data Portability: Ability to transfer between NAC-compliant systems
Network Effects: Increased value as more entities join NAC network
Global Integration: Contribution to planet-wide cybernetic feedback loops

---

SECTION 9: TERMINATION AND RENEWAL

9.1 Renewal Process

Performance Review: Comprehensive assessment of CARE Compliance
Community Feedback: Input from affected stakeholders required
Improvement Planning: Commitment to enhanced outcomes in next term
Fee Adjustment: Rates updated based on performance and economic conditions

9.2 Termination Conditions

Material Breach: Fundamental violation of license terms
Non-Payment: Failure to pay agreed fees within grace period
Harm Documentation: Demonstrated negative impact on regenerative goals
Community Rejection: Loss of social license from affected populations

9.3 Post-Termination Obligations

Data Retention: Continued responsibility for collected personal data
System Migration: Assistance with transition away from NAC systems
Impact Assessment: Documentation of long-term effects of implementation
Restoration Requirements: Repair of any harm caused during license period

---

SECTION 10: DISPUTE RESOLUTION

10.1 Mediation First

All disputes must first attempt resolution through mediation with trained NAC Framework facilitators who understand both the technical and regenerative principles involved.

10.2 Arbitration Process

Unresolved disputes proceed to binding arbitration by panel including:
- NAC Framework expert
- Affected community representative
- Independent sustainability professional
- Legal expert in intellectual property

10.3 Community Voice

Affected communities have standing in all disputes and their wellbeing takes precedence over purely commercial considerations.

SECTION 11: AMENDMENTS AND EVOLUTION

11.1 Framework Evolution

The NAC Framework will continue evolving based on implementation experience, scientific advances, and community feedback. License terms may be updated accordingly.

11.2 Grandfathering Provisions

Existing licensees receive reasonable notice of changes and transition period to comply with new requirements.

11.3 Democratic Input

Major license changes subject to input from licensee network and affected communities before implementation.

SECTION 12: LEGAL JURISDICTION AND GOVERNING LAW

12.1 Governing Law

This license shall be governed by the laws of [jurisdiction to be determined], with preference for legal systems that recognize rights of nature and intergenerational equity.

12.2 International Coordination

Where licensees operate across multiple jurisdictions, international coordination protocols apply to ensure consistency with NAC Framework principles.

CONCLUSION

This license framework ensures that the transformational potential of the New Age Cybernetics Framework serves humanity's transition to planetary stewardship while preventing exploitation or misuse that could harm Earth's regenerative capacity. Through careful balance of accessibility, accountability, and protection, this license enables the widespread implementation necessary for civilizational transformation while maintaining the integrity of the NAC Framework's core mission.

Open Source Creative Commons

By using, implementing, or distributing any component of the NAC Framework, you agree to be bound by the terms of this license and to uphold the principles of Community, Actuation, Regeneration, and Equity in all related activities.
