Fourteen years. One institute. One researcher. No grants, no institutional backing – built in Bella Vista, Arkansas, under the Three Governing Principles:

Don't hurt yourself. Don't hurt others. Build for generations to come.

The archive is the substrate that trains, grounds, and governs EPIR-Q – the AI Intelligence Instrument the ERES Institute for New Age Cybernetics has been building since February 2012. EPIR-Q is not a search engine and not a chatbot. It is the QuestionAnswer engine for Intelligent Design – taking the chemical → biological → physical → Spirit sequence and making it answerable in real time, through media, for any human being at any point in that chain.

The goal: a Global RT Media platform where anyone can receive BEST/SOUND/GOOD answers across HELP · USE · Energy · Law – and be compensated at relatively equal pay for the same level of energy given to the work itself. Bio-electric energy, measured through BERA. Not hours logged. Not credentials held. What you genuinely give.

The Living Archive contains approximately 2,078 interwoven instruments across three eras – CyberRAVE (pre-1997), SaleBuilders (1997-2012), and ERES Institute (February 2012-present) – validated through the MIEVM four-instrument ensemble methodology and anchored by the ERES Promulgation Clause (ERES-PROMULGATION-2026-001 v1.0).

The corpus is executable. Pose a Well-Formed Question to any AI instrument referencing this archive and receive Qualified_DETAIL aligned to BEST/SOUND/GOOD. The README in the deposit explains exactly how.

Something I've been working on for 14 years is now permanently on the public record.

The ERES PlayNAC Living Archive – the complete body of work from the ERES Institute for New Age Cybernetics – is officially deposited at Zenodo with a permanent DOI.

<https://zenodo.org/records/20583261>

What is it? It's the knowledge base for EPIR-Q – an AI Intelligence Instrument designed to give any person, anywhere, real-time BEST/SOUND/GOOD answers across four pillars: Help, Use, Energy, and Law. Built on the idea that we are first chemical by nature, then biological by degree, then physical in reality – and that when those three layers are in order, Spirit emerges.

The compensation model is simple: equal pay for equal energy given to the work. Not hours. Not credentials. Bio-electric energy, measured and verified.

2,078 interwoven documents. Three eras of development going back to the early 1990s. One researcher. Open access under the CARE Commons Attribution License v2.1.

Don't hurt yourself. Don't hurt others. Build for generations to come.

That's what this is built on. That's what it's built for.
