On this day, June 3, 2026, I, Joseph Allen Sprute, Founder and Director of the ERES Institute for New Age Cybernetics, established February 2012 in Bella Vista, Arkansas, do hereby declare the ERES civilizational architecture operative — its corpus complete as a living, self-correcting instrument of resonant governance, its principles irrevocably committed to the public record, its kernel running, and its three governing laws in perpetual force: **Don't hurt yourself. Don't hurt others. Build for generations to come.** This declaration is made without institutional permission, without financial resource, and without delay. It is made because it is time.

*The seed was planted in 2012. The roots are 1,083 documents deep. Today the sprout breaks ground — not as a proposal, not as a vision, not as a theory awaiting permission — but as a living system, declared operative, tuned and resonant, offered freely to every human being on Earth who needs a number they can call for real help. ERES is alive. The kernel runs. The corpus stands. **What was SPRUTE is now SPROUT.***
