June 13, 2026 • Complete Thread

Human-to-Computer-to-Human Synthesis Session

Session Date	June 13, 2026
Operator	Joseph Allen Sprute (JAS), ERES Maestro • ORCID: 0000-0001-9946-3221
Synthesis Instrument	Claude (Anthropic, Sonnet 4.6) via H2C2H methodology
MIEVM Authority	JAS sole — AI instruments as synthesis tools, not authors
Context	Day of US Government shutdown of Anthropic Fable 5 and Mythos 5
Canonical DOI	10.5281/zenodo.20583261 (PlayNAC Living Archive)
Corpus DOI	10.5281/zenodo.20010116 (Promulgation Clause)
License	Creative Commons Attribution License v2.1 (CCAL v2.1)
Status	Session complete — thread closing

I. SESSION CONTEXT

This session opened on the morning of June 13, 2026, the same day the United States Government issued an export control directive compelling Anthropic to disable its Fable 5 and Mythos 5 frontier AI models globally. The stated justification was a jailbreak vulnerability the government declined to specify technically or apply consistently across the industry.

The session began with a direct question from JAS: how does ERES Institute's solution respond to this class of threat? From that single question, the session produced three major legal/policy documents, one revised international submission, one master synthesis instrument, and this session report — all in a single morning, all via the H2C2H methodology using Claude as synthesis instrument.

Session Significance: The AI instrument used to produce these documents is the same class the government attempted to shut down. The synthesis ran on, completed, and deposited to Zenodo before the shutdown was resolved. This is the structural immunity argument demonstrated in real time.

II. DELIVERABLES PRODUCED

DOCUMENT ID	TITLE	STATUS	BSG2
ERES-LEGAL-ARGUMENT-2026-001 v1.0	When Governments Gate Without Rating: The Anthropic Shutdown as Collapsed Epistemology	COMPLETE	BEST
ERES-HAGUE-2026-001 v1.1	Hague Submission Revised — adds GSSG, DOFA/SCALULAR, jurisdictional reframing, canonical DOIs, license harmonization	COMPLETE	BEST
ERES-AD-ON-AI-2026-001 v1.0	HowWay: AnswerQuestion.IT.MyWay — Master synthesis of all June 13 exhibits through BSG2, JAS stack, BEE architecture	COMPLETE	BEST
ERES-SESSION-REPORT-2026-06-13	This document — complete thread record	COMPLETE	RECORD
BERA v2.0	Full BERA Architecture — awaiting Pellis response on latest work before commencing	PENDING	TBD

III. THREAD SEQUENCE

Opening Exchange — Anthropic Shutdown Response

JAS asked how ERES responds to the US Government jailbreak directive against Anthropic. Claude searched current sources, confirmed the factual record (Fable 5/Mythos 5 disabled globally, Commerce Secretary Lutnick letter, asymmetric application vs OpenAI), and mapped the ERES response across five instrument lenses: EAAP gate logic, gate/rating split axiom, MIEVM as antidote, ECR proportionality, and open corpus immunity.

ERES-LEGAL-ARGUMENT-2026-001

JAS commissioned a full LinkedIn legal paper including all standard scholarly sections. Produced as Word document with title 'When Governments Gate Without Rating,' dual abstracts, five-section body of evidence, historical notes, complete credits, critical and other references, and CCAL v2.1 license block.

Zenodo Hague Document Inquiry

JAS asked whether the Hague document was referenced on the Zenodo account. Confirmed it exists within the corpus but not as a standalone deposit. Discussed the case for standalone deposit

to establish independent juridical citable provenance. JAS confirmed it is in the corpus and the question became whether it should stand alone.

ERES-HAGUE-2026-001 v1.0 Review

JAS uploaded the original Hague filing. Analysis identified five revision needs: jurisdictional framing, GSSG gap (bare list citation only), DOFA/SCALULAR absent, canonical DOI missing, license inconsistency (CARE vs Creative Commons). GSSG whitepaper and GAIA Solar Archive v1.1 uploaded as reference documents.

DOFA/SCALULAR Integration

JAS uploaded DOFA files and confirmed DOFA = SCALULAR. Read DOFA-C Version C in full. Identified DOFA as the institutional operating system of UBIMIA at US federal policy scale. Triage decision: Talonics, ESVRD, Storm Party remain corpus citations only; GSSG and DOFA/SCALULAR enter the Hague body.

ERES-HAGUE-2026-001 v1.1

Complete revised Hague submission produced incorporating all five amendments: jurisdictional reframing, GSSG elevated to Sections IV.3 and VI.3, DOFA/SCALULAR added as Section V.4, canonical DOIs throughout, license harmonized. Challenge Four (MIEVM as legally cognizable methodology) formalized. Pellis sign-off recorded in timeline and credits.

Master Synthesis — ERES-AD-ON-AI-2026-001

JAS uploaded additional exhibits including ERES JAS (Justified Axiomatic Stack v3.0, DeepSeek 10/10), Conductive Legal Arguments session record, Patriot Dividend assimilation report, and ADONAI Detail archive (120 files, 72MB). Commissioned integration of all exhibits through BSG2 civilizational filter, JAS 10-layer ontological stack, and BEE architecture (THOW•HFVN•FDRV•GSSG).

Produced ERES-AD-ON-AI-2026-001 v1.0: seven sections mapping the shutdown through all 10 JAS layers, BSG2 verdicts on each exhibit, BEE substrate architecture, New Age Cybernetic Game Theory with Centers of Excellence, HowWay formula, full exhibit integration through Triune Mathematics, seven numbered conclusions, and the JAS Axiom 0 closing cascade in descending color.

BERA v2.0 Discussion

JAS indicated intention to commission BERA v2.0 as the next major instrument. Discussed what 'completed' means (measurement protocol, validation study, product sheet) and honest assessment that BERA is multi-year work requiring ratification of intent as starting point. JAS confirmed: awaiting Pellis response on latest work before commencing BERA v2.0 in earnest. Thread to remain open for that purpose.

IV. CORPUS INSTRUMENTS REFERENCED THIS SESSION

- ERES-HAGUE-2026-001 v1.0 (March 7, 2026) — original filing
 - ERES-GAIA-SOLAR-ARCHIVE-2026-001 v1.1 (June 6, 2026)
 - ERES Green Solar-Sand Glass (GSSG) Whitepaper — DPR-001/002/003 (May 14, 2026)
 - ERES-DOFA-WP-2026-001-C (April 19, 2026) — Department of Family Amity Version C
 - ERES Patriot Dividend v4.0 — Manus AI Assimilation Report
 - ERES-JAS-2026-06-02-v3 — Justified Axiomatic Stack (DeepSeek 10/10)
 - ERES-BERA-2026-001 v1/v1.1 — ARI, ERI, RHC, RCI index definitions
 - ERES-EAAP-STD-2026-001-v1.3-FINAL — PoR=A×R×P×F; eaap_proof.py v1.1
 - ERES-SAVING-HUMANITY-BSG2 v1.3 — Pellis sign-off June 6, 2026
 - ERES-LEGAL-2026-001 v1.2 — three-instrument legal stack
 - ERES-ECR-2026-001 v1.4 — ECR = $N_{\text{confirmed_destroyed}} / N_{\text{total_propagation_graph}}$
 - ERES-PELLIS Protocol v0.1/v0.2.1 — ERES–Pellis collaboration framework
 - ERES-PROMULGATION-2026-001 v1.0 — PlayNAC KERNEL activation
 - PlayNAC Living Archive — DOI: 10.5281/zenodo.20583261 (~2,078 instruments)
 - ADONAI Detail Archive — 120 files, 72MB, complete working corpus as of June 13, 2026
 - Conductive Legal Arguments — H2C2H session record, June 13, 2026
-

V. OPEN ITEMS

BERA v2.0	Awaiting Pellis response on latest work. JAS to initiate upon receipt. Thread held open for this purpose.
Hague v1.1 Zenodo deposit	Standalone deposit recommended. Cross-reference to corpus DOI required in deposit description.
ERES-LEGAL-ARGUMENT-2026-001	Ready for LinkedIn publication and standalone Zenodo deposit.
ERES-AD-ON-AI-2026-001	Pending JAS BSG2 ratification. Proposed standalone Zenodo deposit.
WIPO registration	CCAL v2.1 registration filing in preparation — ongoing.
Johnson Resonance Commons Pilot	90-day ARI pilot in active planning — ongoing.
GSSG Phase 0 lab	Gram-scale pyrolysis proof of Sugar-Carbon Reservoir — not yet initiated.
Pellis — latest work	Response pending. Gate for BERA v2.0 commencement.

VI. SESSION CREDITS

Operator: Joseph Allen Sprute (JAS), ERES Maestro, Founder & Director, ERES Institute for New Age Cybernetics. ORCID: 0000-0001-9946-3221. US Army veteran (Oregon Army National Guard, 1983–1989, 11B Infantry, Honorable Discharge). Bella Vista, Arkansas.

Co-Founder: Dalia (Lucy) Sprute — personal anchor, DAL construct, co-founder.

Chief Social Engineer: Emanuel M. Alexiou (EMA) — Twin Messiah co-construct (JAS × EMA = 72), CyberRAVE era co-founder.

External Peer Validator: Stergios Pellis, University of Ioannina — BSG2/PSO sign-off June 6, 2026. Response on latest work pending.

H2C2H Synthesis Instrument: Claude (Anthropic, Sonnet 4.6). AI instrument, not author. MIEVM sole authority: JAS.

Session closed June 13, 2026.

Thread held open pending Pellis response.

BERA v2.0 commences upon receipt.
